PROGRAMME
27th – 29th September 2018

14th Biennial Congress of the European Association of Oral Medicine in conjunction with the World Workshop on Oral Medicine VII
FROM THE PRESIDENT

My dear Colleagues and Friends,

The European Association of Oral Medicine (EAOM) will hold its 14th biennial meeting in Gothenburg, alongside the World Workshop in Oral Medicine (WWOM) VII. We are honoured and delighted to host the WWOM VII, and look forward to listening to the findings of the various groups. It is a significant time for both organizations: WWOM is marking its 30th year since its establishment, and EAOM is celebrating its 20th anniversary.

The EAOM Board and the Local Organizing Committee have been working tirelessly to prepare an exciting programme that brings together many highly renowned and talented speakers from a range of backgrounds. The scientific component of the meeting will include lectures, slide seminars, case and scientific presentations and interactive sessions to match the highest expectations of research and scholarship.

As a part of the satellite activities, we will proudly continue to offer interested dentists and physicians the possibility to sit an examination for the EAOM Diploma.

Since its foundation, EAOM has grown and expanded steadily reflecting the increasing worldwide importance of Oral Medicine as a dental specialty. Amongst other reasons, this has convinced the EAOM Board to officially outline and present our viewpoint on the diagnosis and management of four of the most common oral diseases seen by specialists in Oral Medicine, in the form of position papers.

We can anticipate that in September in Gothenburg you will have the unique chance to meet up and network with many key international colleagues from across the world. Sadly, one of the founding fathers of EAOM, Professor Crispian Scully, passed away last year, and EAOM has chosen to honour his memory by naming the first key talk of the meeting after him.

I look forward to welcoming you to Gothenburg.

My very best wishes to you all,
Professor Marco Carrozzo
EAOM President
The Local Organizing Committee (LOC) for the 14th Biennial Congress of the European Association of Oral Medicine (EAOM) is honoured to welcome you all to Gothenburg. This is the second time Gothenburg hosts an EAOM congress. The first time, in 2000, almost 200 delegates attended the meeting. During the last 18 years the field of oral medicine has developed both regarding clinical care and research. This year, we welcome more than 500 delegates from all over the world to the west coast of Sweden.

The scientific programme has the theme “Current challenges become future developments in oral medicine”. The delegates consist of prominent researchers in the field of oral medicine as well as renowned researchers in other fields of life sciences. The latest scientific results will be shared through both oral scientific presentations and a poster exhibition. Almost 200 posters will be at hand during Friday and Saturday. Clinical cases will also be presented.

An important part of an EAOM meeting is the clinico-pathological conference (CPC). In this session, a challenging clinical case is presented by a discussant that is unaware of the correct diagnosis. Together with the colleague that has submitted the case, a discussion follows that eventually will lead to a correct diagnosis. This session enables both clinicians and scientists to gain knowledge about rare cases and diagnostic pitfalls.

The EAOM congress is preceded by the World Workshop on Oral Medicine (WWOM) VII during the first days of the week. WWOM members have pursued the challenging task to retrieve and compile state of the art on a number of subjects within the scope of oral medicine. The results from the workshop will be presented to the delegates attending the EAOM meeting. This will further increase the scientific level of the meeting. The LOC joins in the President’s statement that we are honoured to welcome the faculty from the WWOM VII to the 14th Biennial Congress of the EAOM. We in the LOC also extend a special thanks to the WWOM organizing committee for an excellent and enjoyable collaboration in the preparation for the two meetings.

EAOM and the LOC also sincerely welcome our sponsors and exhibitors. The companies and organizations that participate in EAOM 2018 are an important part of the meeting and makes the essential interaction between science, clinics and industry possible. We urge all delegates to visit the exhibition and discuss with our sponsors and exhibitors.

The city of Gothenburg in the autumn can offer sunshine, but also wind and rain. The city is easy to get around in. In the city center you will find shopping, beautiful parks and excellent restaurants.

The members of the Local Organizing Committee hope you will enjoy the congress and wish you a heartily welcome to Gothenburg and the west coast of Sweden.

Bengt Hasséus (Chair),
Inger von Bültzingslöwen, Agne Nihlson
Jairo Robledo-Sierra, Maria Bankvall
Per-Olof Rödström, Mats Jontell (Senior Advisor), Jonas Sundberg, Lena Lindahl

# Programme overview

## September 27
### Thursday
- 10:00
  - Examination for the diploma in Oral medicine
- 14:00
  - EAOM Board meeting
- 14:00-20:30
  - Registration open
- 18:00
  - Congress opening
- Opening ceremony
- Pre-Symposium
- Crispian Scully Lecture
  - SJÖGREN’S SYNDROME: FROM BENIGN TO MALIGNANT LYMPHOPROLIFERATION
  - Haralambos M. Moutsopoulos
  - Professor
  - University of Athens, Greece
- 19:30-21:30
  - Welcome Reception hosted by the City of Gothenburg and Region Västra Götaland
  - Venue: Lindholmen Conference Center

## September 28
### Friday
- 07:00-17:30
  - Registration open
- 08:00-10:00
  - Scientific programme
- 10:00-10:30
  - Coffee break, exhibition and poster viewing
- 10:30-12:30
  - Scientific programme – Parallel sessions
- 12:30-13:30
  - Lunch break, exhibition and poster viewing
- 13:30-15:30
  - Scientific programme – Parallel sessions
- 15:30-16:00
  - Coffee break, exhibition and poster viewing
- 16:00-17:15
  - Scientific programme
- 17:30-18:30
  - General assembly

## September 29
### Saturday
- 07:30-18:00
  - Registration open
- 07:45-09:30
  - Scientific programme
- 09:30-10:15
  - Coffee break, exhibition and poster viewing
- 10:15-12:15
  - Scientific programme
- 12:15-13:45
  - Lunch break, exhibition and poster viewing
- 12:15-13:45
  - Lunch and learning
- 13:45-16:45
  - Scientific programme – Parallel sessions
- 14:45-15:45
  - Coffee is served
- 17:00-17:15
  - Presentation of next EAOM-meeting
- 17:15-17:30
  - Closing remarks
- 19:30-00:30
  - Congress Dinner
  - Venue: Restaurant Kajskjul 8
Detailed programme
“Current challenges become future developments in oral medicine”

Thursday 18.00-19.30
18.00-19.30 Congress Opening and Pre-Symposium
Session Room: Conference Hall

Opening Ceremony
Pre-Symposium Crispian Scully Lecture
Sjögren’s syndrome: a disorder expanding from benign to malignant lymphoproliferation
Haralambos M. Moutsopoulos, Greece

19:30-21:30 Welcome Reception
Hosted by the City of Gothenburg and Region Västra Götaland
Venue: Lindholmen Conference Center

Friday 08.00-17.15
08.00-8.10 Welcome and practical information
Session room: Conference Hall
President Local Organising Committee
Bengt Hasséus, Sweden

08.10-10.00 EAOM position papers
Session room: Conference Hall
Session chairs: Marco Carrozzo, UK and Alexandra Sklavounou, Greece

08.00-10.30 COFFEE BREAK
EXHIBITION & POSTER VIEWING

10.00-10.30 PARALLEL SESSIONS
PARALLEL SESSION 1: Prediction of cancer development and prognostic evaluation. New trends in diagnostics
Session room: Conference Hall
Session chairs: Fred Rozema, Netherlands and Guntars Selga, Latvia

MOLECULAR BIOLOGY, MICRO-RNA, EPIGENETICS, PREDICTIVE MARKERS AND DIAGNOSTICS
Monica Pentenero, Italy

MEDICAL IMAGING COMPARED TO CONVENTIONAL TECHNIQUES, ADVANCES IN DIAGNOSTIC OPTICAL IMAGING
Camile Farah, Australia

BIOLOGICAL MARKERS FOR RISK PREDICTION OF EARLY PREMALIG-NANT LESIONS
Miriam Rosin, Canada

CHROMOSOME TRANSLOCATIONS AND FUSION ONCOCGENES IN THE GENESIS OF SALIVARY GLAND TUMORS
Göran Stenman, Sweden

PARALLEL SESSION 2: Case presentations
Session room: Pascal
Session chairs: Maria Westin, Sweden and Michael T. Brennan, USA

TRAUMA AND DENTAL TREATMENTS

Management of facial deformity (orofacial granulomatosis) and parental concerns of bullying – a report of two cases
Melanie Simms, UK

Jacob’s syndrome. Presentation of three clinical cases
Maria Magaix-Muñoz, Spain

Same PTEN gene mutation found in two relatives with Cowden Syndrome
Martin Giorgio Campolongo, Italy

Localized juvenile spongiotic gingival hyperplasia: report of two cases
Vasileios-Ionas Theofilou, Greece

Oral lichen planus and thymoma. Report of two cases
Ioanina Mihaela Parlatescu, Romania

Oral aphthous-like ulcers associated with a selective PI3K inhibitor
Savvas Titsinides, Greece

Oral ulceration with bone sequestration: report of eight cases
Eleni-Marina Kalogirou, Athens, Greece

mTOR inhibitor-associated stomatitis breakthrough in a kidney recipient patient
Fabiana Martins, Brazil

Oropharyngeal tissue as a potential source for autologous cell transplantation
Craig Whitelaw, UK

12.30-13.30 LUNCH BREAK
EXHIBITION AND POSTER VIEWING

13.30-15.30 The barrier functions of the mucosa
Session room: Conference Hall
Session chairs: Inger von Bültzingslöwen and John Bratel, Sweden

MOUTH, LUNG AND GASTROINTESTINAL TRACT; MUCUS AND MUCINS
Gunnar C Hansson, Sweden

GASTROINTESTINAL TRACT; MUCOSAL MICROBIOME IN HEALTH AND DISEASE
Thomas Greiner, Sweden

ORAL BIOFILM – FRIEND OR FOE
Gunnel Svensäter, Sweden

15.30-16.00 COFFEE BREAK
EXHIBITION AND POSTER VIEWING

Swelling in the zygomatic region as a first sign of non-small cell lung cancer: presentation of two cases
Elisabeth Brouns, Netherlands

Oral amelanotic melanoma: a silent killer
Dimitrios Maloutas, Greece

13.30-15.30 Parallel Session: Slemhinneförändringar som du ser i din kliniska vardag
(Session in Swedish about oral mucosal diseases you may encounter in everyday clinical practice)
Session room: Pascal
Wivi-Anne Sjöberg, Emma Ekenstråle, Sweden

08.10-10.00 EAOM position papers
Session room: Conference Hall
Session chairs: Maria Westin, Sweden and Michael T. Brennan, USA

LEUKOPLAKIA
Camile Farah, Australia

ORAL LICHEN PLANUS
Stefano Fedele, UK

13.30-15.30 Parallel Session: Slemhinneförändringar som du ser i din kliniska vardag
(Session in Swedish about oral mucosal diseases you may encounter in everyday clinical practice)
Session room: Pascal
Wivi-Anne Sjöberg, Emma Ekenstråle, Sweden

15.30-16.00 COFFEE BREAK
EXHIBITION AND POSTER VIEWING

Posters
Friday

Fri-01
Measurement properties of self-administered health-related quality of life instruments used in recurrent aphthous stomatitis
Wiriyakijja P, Assas M, Fedele S, Porter S, Ni Riordain R

Fri-02
Bacterial aggregation in the saliva of patients with recurrent aphthous stomatitis
Rahimi A, Jantell M, Bankvall M, Cevik Aras H

Fri-03
Vitamin D deficiency among patients with recurrent aphthous stomatitis: a preliminary study from the UAE
Al-Amad S, Hasan H, Awad M

Fri-04
Dietary habits among patients with recurrent aphthous stomatitis
Czerninski R, Zini A, Levin O, Almoznino G

Fri-05
Efficacy study on Bexident AFTAS gel, spray and oral rinse used in aphthous stomatitis treatment
Pedersoli L, Dalessandri D, Laffranchi L, Bindi M, Bonetti S, Visconti L

Fri-06
Recurrent aphthous stomatitis: a retrospective study in a group of Thai dental patients
Panpradit N, Maipanich S

Fri-07
Clinical estimation of dental anxiety
Höglund M, Bägsund M, Shahnazav S, Wörth I

Fri-08
Characteristics of the patients who perceived dental treatment as a cause of oral mucosal lesions
Ju H, Ok S, Jeon H, Kim K, Jeong S

Fri-09
Awareness of oral cancer among adults in Jakarta, Indonesia
Wimardhani Y, Warnakulasuriya S, Subita G, Soegyanto A, Pradono S, Patoni N

Fri-10
Differences in collagen XVII expression between skin and oral mucosa affect the pathogenicity of pemphigoid IgG

Fri-11
Chronic oral graft-versus-host disease: salivary cytokines as markers of disease
Hull K, Kerridge I, Avery S, Ritchie D, Szer J, McCullough M

Fri-12
The role of immune reactions in the pathogenesis of pemphigus vulgaris of the oral mucosa
Rabinovich O, Rabinovich I, Abramova E
Fri-13
A retrospective study of immune dysregulated dermatological disorders and their oral manifestations in the Omani population
Saraf S, Nalwade T

Fri-14
Oral health related quality of life is associated with both disease severity and activity in patients with autoimmune bullous disease

Fri-15
Mucous membrane autoimmune bullous diseases: a 20-years retrospective study at a tertiary oral medicine unit
Calabria E, Fortuna G, Leuci S, Lamanna A, Coppola N, Mignogna M

Fri-16
Paraneoplastic pemphigus associated with tynoma
Minicucci E, Ferreira E, Bastos L, Schmitt J, Marques M

Fri-17
Is a “punch on the gum” the way you need to diagnose oral blistering disease?
Gilvetti C, Barret B, Collyer J

Fri-18
Psoriatic arthritis with tongue manifestations: Report of an unusual case
Andreadis D, Zisis V, Theodoridou A, Anagnostou E, Poulopoulos A

Fri-19
The optimal oral biopsy site: punch biopsy of uninvolved buccal mucosa is equally sensitive to perilesional tissue for diagnosis of oral pemphigus and pemphigoid
Carey B, Joshi S, Adbelghani A, Andiappan M, Setterfield J

Fri-20
Liver enzyme levels, lipid profiles and cardiovascular risk in patients with oral lichen planus
Cigic L, Radic T, Glavina A, Biocina-Lukenda D

Fri-21
Oral lichen planus and malignancy
Tovaru S, Parlatesco I, Nicolae C, Tovaru M

Fri-22
Assessment of the psychometric properties of the hospital anxiety and depression scale in patients with chronic ulcerating oral mucosal disease
Alamoudi W, Al-Jallili R, Tariq N, Ni Riordain R, Porter S

Fri-23
Chronic mucocutaneous ulcerative disorder with SES-ANA: a case report and detailed review of CUS
Azzi L, Croveri F, Tagliabue A, Tettamanti L

Fri-24
Oral lichen planus of the gingiva and its management in a group of Portuguese patients
Henriques J, Pinto A, Cordoso I, Monte negro R, Rebelo H, Trancoso P, Mano Azul A

Fri-25
Pemphigus vulgaris: a 25 years retrospective study in a Brazilian oral medicine service
Navarro C, Grifoni I, Lamonato T, Onofre M, Bufalino A

Fri-26
Undifferentiated connective tissue disease arising in an ectodermal dysplasia patient: a case report
Okuma N, Okuma N, Panpradit N, Maipanich S

Fri-27
Review of the current international consensus on burning mouth syndrome: treatment options
Sato J, Kitagawa Y, Asaka T, Ogah N, Tsuchiya E, Yamashita E, Satoh C

Fri-28
The efficacy of fluoxetine in primary BMS
Zoric B, Jankovic L, Kuzmanovic Pficer J, Zidverc-Trajkovic J, Mijajlovic M, Hadzi Mihailovic M, Stanimirovic D

Fri-29
Treatment outcome of venlafaxine and duloxetine in refractory BMS patients
Kim M, Kho H

Fri-30
Usefulness of a cannabis-based medication in patients with burning mouth syndrome: preliminary results of a prospective pilot study
Gambino A, Panagiotakos E, Cabras M, Cefaro A, Broccoletti R, Arduino P

Fri-31
Influences of systemic oxidative stress levels on therapeutic efficiency of tocopherol in treatment of burning mouth syndrome: preliminary study
Kang J

Fri-32
Vortioxetine in the treatment of mood disorders associated with burning mouth syndrome: results of an open label, flexible-dose pilot study
Adamo D, Pecoraro G, Fortuna G, Ruoppo E, Carbone R, Mignogna M

Fri-33
Evaluation of the efficacy of low level laser therapy in the burning mouth syndrome
De Pedro M, Lopez-Pintor R, Casisas E, Ramirez L, Hernández G

Fri-34
Thyroid disorders and the burning mouth syndrome etiopathogenesis
Coculescu E, PăRlăTescu I, Nicolae C, Tovaru &, Coculescu B

Fri-35
Saliva and associated factors in patients with burning mouth syndrome (BMS)
Acharya S, Hagglin C, Jonell M, Wenneberg B, Ekstrom J, Sandell M, Carlén A

Fri-36
EGFR blockade inhibits uptake of tumor cell-derived exosomes through macropinocytosis in oral squamous cell carcinoma
Sasabe E, Liu H, Tomomura A, Tomita R, Sento S, Yamamoto T
Fri-37
Prevention and prognosis of DRONJ: a retrospective study of 37 patients

Fri-38
Evaluation of the inhibitory effects of caffeine on human carcinoma cells: a primary study
Tonkaboni A, Lotfi Bakhshaiesh N, Danesh P, Tajarieran R, Kargozar S

Fri-39
Ubiquitin specific peptidase 13 promotes cell invasion in head and neck squamous cell carcinoma by interacting with and stabilizing BMI-1
He M, Chen Q, Wan Y

Fri-40
Oral mucositis and microbial colonisation in oral cancer patients undergoing radiotherapy and chemotherapy - a prospective analysis in a tertiary care dental hospital
Subramaniam N, Subramaniam N, Muthukrishnan A

Fri-41
Oral cavity condition in patients with acute myeloid leukaemia after allogeneic peripheral blood stem cell transplantation
Wysocka-SłOwik A, Gil L, Slibioda Z, Bartkowiak A, Dorocka-Bobkowska B

Fri-42
Oral cancer - knowledge and risk perception in the screening population

Fri-43
Oral shedding of human herpesvirus and the association with xerostomia in patients undergoing radio/chemotherapy treatment for squamous cell carcinoma in head and neck region
Palmieri M, Pereira Ornagh M, Brandão T, Correa L, Massami Sumita L, Tazetto-Men- doza T, Braz-Silva P

Fri-44
Oral cancer and potentially malignant lesions: knowledge, attitudes and practices of Portuguese dentists
Pinto A, Henriques I, Cordoso I, Louraço A, Freitas F, Françoos P, Azul A

Fri-45
Prognosis of oral squamous cell carcinoma in association with oral lichen planus
Pimolbutr K, Porter S, Fedele S

Fri-46
Environmental and behavioral head and neck cancer risk factors
Vucevic Boras V, Fucic A, Blivajs I, Bisof V, Ceppi M, Bruzzozone M, Baranovic S

Fri-47
Polyomavirus JC detected in adenoid cystic carcinoma of trachea, parana- sal sinususes and oral cavity
Hämotoja H, Jaana H, Cof H, Leif B, Antti M, Stina S

Fri-48
The induction of epithelial-mesenchy- mal transition in oral epithelial cells by fusobacterium nucleatum - preliminary results
Alnafea S, Nair S, Fedele S

Fri-49
Targeting MMP2 with monoclonal antibodies in oral squamous cell carcinoma
Celentano A, Cirillo N, Mccullough M

Fri-50
Differential expression of CYP1A1, CYP1B1, CYP2A6 and CYP2E1 in oral squamous cell carcinoma from smokers and non-smokers

Fri-51
Brush biopsy for HR-HPV detection with FTA card and ai for cytology analy- sis - a viable non-invasive alternative

Fri-52
Podoplanin as a potential predictive biomarker of malignant transformation in oral leukoplaikas
Monteiro L, Delgado L, Amaral B, Salazar F, Pacheco J, Warnakulasuryia S

Fri-53
Loss of occludin is indicative of poor survival in oral squamous cell carcino- nomas
Delgado L, Monteiro L, Amaral B, Salazar F, Pacheco J, Warnakulasuryia S

Fri-54
Metastatic tumors to the jawbones - report of 10 cases
Andabak Rogulj A, Tomasovic Loncaric C, Mueller D, Blivajs I, Andabak M, Vucevic Boras V

Fri-55
Interventions for preventing and/or managing radiation-induced-fibrosis to the head and neck
Valeria M, Alsoghier A, Porter S, Fedele S

Fri-56
Analysis of salivary cytokines and chemokines in early and late stages of oral squamous cell carcinoma (OSCC)
Dikova V, Principe S, Bagan J, Jantus - Lewintre E, Camps C

Fri-57
Acute oral complications in patients undergoing radio/chemotherapy treatment for squamous cell carcinomma in the head and neck region

Fri-58
Human papillomavirus infection and sexual habits in a population of young Italian adults
Varoni E, Franchini R, Noviello V, Moneghini L, Lodi G

Fri-59
Nutritional status assessment of head and neck cancer patients: a cross-sectional study
Varoni E, Sardella A, Pischetola S, Spallino G, Iriti M

Fri-60
FASN and GLUT-1 expression in the malignant transformation of the pleo- morphic adenoma
Fernandes L, Carvalho L, Scarnati J, Egal E, Tincani A, Del Negro A, Bastos D, Kowalski L, Altemani A, Mariano F
HMGA2 expression in pleomorphic adenoma, recurrent pleomorphic adenoma and carcinoma ex-pleomorphic adenoma

Measurement properties of patient-reported outcome measures in radiotherapy-induced trismus

Retrospective study of oral dysplasia and squamous cell carcinoma developed in patients with graft versus host disease
Fricain J, Fricain J, Morel F, Catros S, Fenelon M

Salivary cytokines and chemokines in patients affected by oral squamous cell carcinoma. A case-crossover study
Val M, Manini L, Marino R, Pentenero M

Melanoma of the oral mucosa. Clinical case
Poveda-Roda R, Margai-Muñoz M, Bagán-Debón L, Bagán J

Diffuse large B-cell lymphoma of the oral cavity
Jimenez Y, Gavaldá C, Sanchis J, Rubert A, Bagán J

Colon adenocarcinoma metastasis to the mandible: a case report
Gavaldá C, Rubert A, Sarrión M, Bagán J

Clinical case: multiple myeloma with initial manifestations in the oral cavity
Jose Vicente B, Rafael P, Manuel L, Jose Maria S

Protective effects of metformin, statins and anti-inflammatory drugs on head and neck cancer: a systematic review
Saka C, Joné-Salas E, Estrugo Devesa A, Rodríguez de Rivera E, López-López J

Current approaches to early diagnosis of oral squamous cell carcinoma: case series
Ak G, Hacioglu E, Acikgoz M, Yurtseven A

The role of computer guided implantology during complex dental treatment under general anaesthesia
Michaeli E, Pettesh J

Importance of eliminating potential dental focal infection before hematopoietic stem cell transplantation: a retrospective cohort study in Japan
Shimada Y, Kawasaki Y, Hagiwara S, Nakamura F, Maruoka Y

Should we assess TAVI patients the same as valve surgery patients

Impact of oral health on outcomes of renal transplantation

Cross-cultural adaptation and psychometric properties analysis of the European medical risk-related history (EMRRH) questionnaire for use in the Indonesian-speaking population
Baringbing A, Subita G, Wimardhani Y

The antifungal susceptibility to octenidol and chlorhexidine of candida spp. Oral isolates from patients with denture stomatitis

Sino-palatal-vestibular mucormycosis and aspergillosis in a patient with acute b lymphoblastic leukaemia

Close relationship between the palmpoplantar pustulosis and dental treatment
Asaka T, Morimoto M, Sato J, Ohga N, Kitagawa Y

The expression of insulin-like growth factor 2 (IGF2) in patients with oral lichen planus and diabetes mellitus
Loncar Brzok B, Sabol I, Veliki-Dalic I, Krušlin B, Mrovak-Stipetic M

Self-reported oral and dental experience of patients with scleroderma
Abdouh I, Ní Riordáin R, Fedele S, Porter S

Oral and dental findings in Hamamy syndrome
Hassona Y, A Bonna S

Current oral surgical approaches to hemophilic patients: case series
Ak G, Acikgoz M, Yurtseven A, Hacioglu E

Impacted canine surgery in a patient with homocystinuria: a case report
Ak G, Yurtseven Gunay A, Acikgoz M, Akbıyık Az Z

Salivary cardiac troponin I as a potential marker for detection of acute myocardial infarction
Khanna V, Mishra V

Arduino P, Gai C, Gambino A, Cabras M, Camussi F, Broccoletti R, Camussi G

The expression of insulin-like growth factor 2 (IGF2) in patients with oral lichen planus and diabetes mellitus
Loncar Brzok B, Sabol I, Veliki-Dalic I, Krušlin B, Mrovak-Stipetic M
Chronic graft-versus-host disease oral mucosal histopathological grading module

Interim performance of an oral rinse point-of-care assay to aid in the diagnosis of oral squamous cell carcinoma (OSCC) in a German oral-maxillofacial surgery university clinic

Salivary metabolomics in the early diagnosis of head and neck squamous cell carcinoma
Ferrazzo K, Willrich de Melo L, Hennemann B, Ferrazzo V, Danesi C, Zanatta N

Candida species colonization and red autofluorescence of the dorsal tongue

Rare presentations of cranial nerve dysfunction associated with space-occupying lesions
Dennis A, Carey B, Gill D, Porter S

Morphometric Analysis of the anatomical variables of the maxillary sinus and the alveolar artery using Cone Beam Computed Tomography (CBCT)
Guerrero Sánchez Y, López Jornet P, Parra Pérez F

Resistance to biocides in oral Staphylococcus aureus
Hijazi K, Mukhopadhyya I, Ogioni M, Smith A, Gould I

Prevalence of human papillomavirus in saliva of women with HPV-related genital lesions
Parcharidis E, Poulopoulos A, Andreadis D, Nasioutziki M, Kolokotronis A

Impact of the 2007 American Heart Association’s antibiotic prophylaxis guidelines on antibiotic prophylaxis prescribing and incidence of infective endocarditis in the USA

In vivo and ex vivo evaluation of tablets containing piroxicam-cyclodextrin complexes for buccal delivery
Andreadis D, Kontogiannidou E, Ferrari M, Bouropoulos N, Kлепетсанис P, Sorenti M, Catenacci L, Poulopoulos A, Fatouros D

Electrospun fibres deliver lidocaine HCL to porcine buccal mucosa: an ex vivo permeation and MALDI-MS imaging study

Systemic medication of patients with oral lichen planus in Turku university hospital
Heinonen M, Hieta N, Willberg J

A pigmented palate - hydroxychloroquine-related oral hyperpigmentation
Mokhlesi L, Chaudhry S

Oral side effects of chemotherapy – cross sectional study
Garcia - Chias B, Figuero E, Castelo - Fernandez B, Cebrian - Carretero J, Cerero - Lapedra R

Role of periapical diseases in development of medication-related osteonecrosis of the jaw
Rao N, Zheng L

Tumor-like gingival overgrowth induced by calcium channel blocking agents
Kim J

Angioedema of lower lip and gingiva due to oral hormonal therapy
Skrinjar I, Loncar Brzak B, Carek A

Oral mucosal lesions as a side effect of antituberculosis drugs
Ak G, Akbiyik Az Z, Hacioglu E, Yurtseven A

Steroid-based inhalers are remarkably associated with occurrence of oral hairy leukoplakia in HIV-negative patients
Nama N, Vered M, Grinstein Koren O, Katz L, Zlotogorski Hurvitz A
Oral cooling distribution using Cooral™ and ice chips
Mahdi A, Jontell M, Walladbegi J

The oral manifestations of psychiatric disorders
Hamadah O, Alhaffar M, Abbas G, Latiefeh Y

Risk factors influencing gingival enlargement in renal transplant patients medicated with tacrolimus

Purulent drainage as a prognostic factor to be considered when planning the surgical approach to medication-related osteonecrosis of the jaw
Marino R, Campolongo M, Val M, Pente-no M

Oral and peri-implant conditions of patients at risk for medication-related osteonecrosis of the jaw (MORNJ)
Vecchiatini R, Xaiz S, Frassolatti A, Cuneo A, Trombelli L

Alterations of mucosal vasculature at early stages of osteonecrosis of the jaws

Oral erythroplakia: a series of six cases
Siponen M, Lajolo C

Co-morbidities in oral lichen planus a prospective hospital-based case-control study
Karimi D, Gambino A, Cobras M, Broccoletti R, Arduino P

Presence of p16 protein in oral lichen planus (OLP) tissue samples and its connection with malignant transformation
Hadzi-Mihailovic M, Zoric B, Stanimirovic D, Rayboud H

Malignant transformation of oral leukoplakia in a well-defined cohort of 162 patients with a long-term follow-up
Brouns E, Karagozoglou H, Forouzanfar T, Bloemena E, De Visscher I

Epithelial dysplasia in oral mucosal disease - importance in control of oral candidiasis: 4-year follow up case report
Ko D, Shim Y

Dioxide carbon laser treatment of 36 cases of oral leukoplakia
Barreto E, Salazar F, Pacheco J, Monteiro L

Analysis of haplotypes of gene polymorphisms (TLR3 and TLR4) in OLP
Stanimirovic D, Hadzi-Mihailovic M, Zoric B, Zeljic K

Recurrence rate after surgical removal of oral leukoplakia

Leukoplakia and OSCC
Sepic Matanovic B, Molnar M, Pazin B, Radman M

Contact endoscopy and laser treatment of oral leukoplakia - a new protocol proposal
Galrito M, Santos A, Monteiro L, Salvado F, Macor C

PD-1 expressing cells in leukoplakia and oral lichen planus
Dafar A, Siarov A, Robledo-Sierra J, Sundberg J, De Lara S, Giglio D, Ohman J, Hasséus B

Awareness among medical and dental undergraduates of benign and potentially malignant disorders and lesions

The recurrence of oral leukoplakia after surgical treatment with diode laser versus conventional surgery
Khalilayeva E, Kharitonova M

Oral epithelial dysplasia: ten-year retrospective from Istanbul university
Bektas Kayhan K, Biltekin H, Bilgic B

Do nutraceuticals and herbal medicines have a role in managing oral lichen planus? A systematic review
Ali S, Abdelkawy M, Wahbi W

Autophagy-related IRGM in patients with oral lichen planus

Update on the development of a novel treatment for oral lichen planus (OLP) - the Rivelin® patch

The role of mucosal associated invar iant T (MAIT) cells in oral lichen planus (OLP)
Deangelis L, Cirillo N, Gonzalez A, McCul-lough M

Some cases of proliferative multifocal oral leukoplakia could come from oral lichenoid disease with plaque lesions?

General information

Conference venue
Lindholmen Conference Centre
Address: Lindholmen Science Park, Lindholmspiren 5, Gothenburg

Registration fees
EAOM Member: 5100 SEK excl. vat
Non EAOM Member: 6400 SEK excl. vat
Postgraduate Student: 5100 SEK excl. vat
Undergraduate Student: 1950 SEK excl. vat
WWOM Member (non EAOM Member): 5800 SEK excl. vat

Badges
Delegates and exhibitors are kindly requested to wear badges during all congress activities. Entry will not be permitted without a badge.

Wi-Fi
Name: Lindholmen Guest
No password needed.

Speakers instructions
Make sure that you turn up well before your session starts to meet your session chair and the other speakers. Bring a copy of your presentation on a USB flash drive to the room. Please upload and test your presentation in time before your session starts.

Local transportation in Gothenburg
Lindholmen Conference Centre is located in Lindholmen Science Park.
The bus stop is called: Lindholmen
The boat stop is called: Lindholmspiren

Tickets and time table
For travel information and travel planner download the app “Västtrafik” travel planner or visit the website: www.vasttrafik.se Nordic delegates can also use the travel planner and pay the trip via the app “To Go”.

You can buy a day card or 3 day card ticket in most convenience stores such as Pressbyrån, 7-eleven etc.
You can pay with credit card on the trams but not on the buses (then you have to buy a ticket in advance).
Please note that no cash are accepted on buses, boats or trams.

By bus
One good way to get to Lindholmen is by bus. Line 16 departs every three minutes during high traffic in the morning and in the evening. During the day, it departs every ten minutes. It takes 6-8 minutes from the Central Station (Nordstan) to Lindholmen.

By ferry
The ferries “Ålvsnabbare” offers free rides and departs every five to ten minutes from Stenpiren or Rosenlund (close to Järntorget) to Lindholmspiren. The trip will take about 5 minutes and the free shuttle is available between 7am and 7pm.
There is also a pay ferry called “Ålvsnabben” boat number 285 that runs between Lilla Bommen – Stenpiren – Lindholmspiren – Slottsberget – Eriksberg – Klippan. This boat runs longer hours and you can pay with credit card on the boat or with Västtrafik travel card.
The stop “Lindholmspiren” is situated right in front of the Lindholmen Science Park area.

**Visitor’s guide to Gothenburg and West Sweden**
Visit www.goteborg.com and www.vastsverige.com
The app “goteborg” is also very useful.

**Messages**
During the conference messages may be directed to eaom2018@meetx.se or by calling the conference secretariat on +46 (0)31 708 84 90.

**Disclaimer of liability**
Neither the local organizing committee nor EAOM will assume any responsibility for accidents, loss or damages as delays or modifications in the programme caused by unforeseen circumstances. Participants must arrange their own travel and health insurance.

**Poster exhibition**
The poster exhibition is located in the rear of the main lecture hall and adjacent areas. There will be two sessions. Posters in Session I will be displayed Friday between 7:45-17:15 and Session II on Saturday between 7:45-17:30. Poster presenters are kindly asked to hang and take down posters within the time ranges stated above. Neither the Local Organizing Committee nor the Professional Congress Organizer Sweden Meetx can assist in sending posters by post to the authors after the congress.

**Abstract collection**
Abstracts are available in the online detailed programme that can be found on the website www.eaom2018.se and in the web based app that has been sent to you in a text message. The abstracts are also found on a flash memory in the conference bag.

**Awards overview**
The European Association of Oral Medicine recognizes the outstanding contribution of EAOM members to the biennial meeting by presenting awards for basic science, translational and clinical research. As well as awards for oral presentations, the most outstanding posters and young investigator/clinicians are recognized. The award winners will be presented at the Gala Dinner Saturday night.

**Conference Dinner**
Date: Saturday 29 September
Time: 19:30-00:30
Place: Kajskjul 8, Packhuskajen 11
Website: www.kajskjul8.se
Closest tram/bus/ferry stop: Stenpiren or Lilla Bommen
The EAOM 2018 Congress Dinner will take place at Kajskjul 8, a venue located in the harbour area in the city centre. Kajskjul 8 was built on the quays along the railroad tracks around 1870. Originally used as a warehouse, the shed was then filled with all kinds of products, such as spices imported from the Orient as well as lumber from the forests of Värmland (the region north of Gothenburg), which would then be transported down to southern Europe and other places. It is a building with a lot of interesting history, nowadays used for events and dinners.
Dinner includes entertainment, a three course dinner and beverages.
WELCOME TO EAOM 2020

A splash of life

NobelPearl™
The ceramic implant renaissance is here. Add a splash of life to your portfolio with a new solution that taps into natural biology, beauty and beyond. A harmonic exhibition of strength and soft-tissue support that is 100% metal free. That’s the unique NobelPearl.
